

Stories by the Bay: OLLI Spring 2022: Streaming Films Mentioned in Class

Each week in class one film will receive a concentrated focus and will be screened in class, but other movies will be referred to that may be of interest to you. Below are streaming services for films to be covered in class but not screened in full. Streaming services besides those listed below are available for most films: see the note about the app JustWatch on page 2 of this handout.

HIGH ANXIETY	Redbox	\$3.99

For your information:

1. The Sonoma County Library offers two digital screening services, Kanopy and Hoopla, that are available for use to anyone with a Library card. You just need your Library card number and provide a password to access thousands of films. You can stream up to 8 films per month and, yes, it is a free service!

Some films listed in the above tables are available on either Kanopy or Hoopla, as noted. Here are the internet addresses to access both websites:

- Kanopy: sonomalibrary.kanopy.com
- Hoopla: hoopladigital.com

2. A free app called “JustWatch” is available to be downloaded which can be used to provide information on sources for streaming movies. You can use JustWatch to do a search on any film title and you’ll be provided with links to stream the film for either rental or purchase.

JustWatch lists quite a few places to stream almost all the films listed in the tables above. You can use this app to choose another streaming service for films discussed in class --- or to access any film you’d like to watch.
